## WHO ARE WE?

With more than 20 years of experience and expertise, AdVisionTech offers a global solution to support and supply research equipment, especially high pressure.

- Consulting service
- Equipment design and manufacture
- Supply of components
- Supply of gas boosters
- Supply of high pressure hydropneumatic pumps
- Supply of high pressure metering pumps
- Supply of laboratory autoclaves

# ZIPPERTEX MKII SUBCRITICAL WATER EXTRACTION

## TECHNICAL DATAS

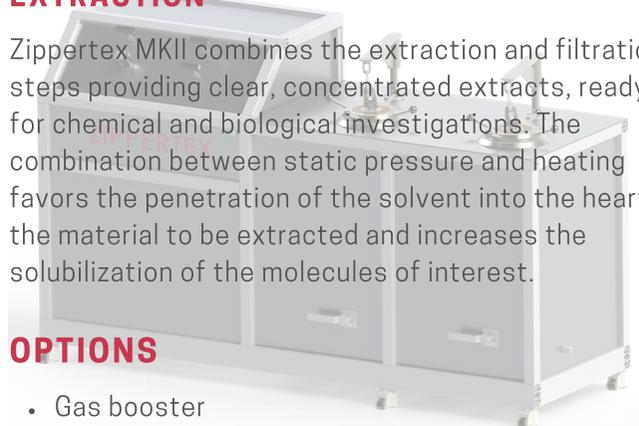

Volume:.....4 or 10L  
 Operating pressure.....180 bar  
 Operating temperature .....180 °C  
 Material:.....SS 316

## EXTRACTION

Zippertex MKII combines the extraction and filtration steps providing clear, concentrated extracts, ready for chemical and biological investigations. The combination between static pressure and heating favors the penetration of the solvent into the heart of the material to be extracted and increases the solubilization of the molecules of interest.

## OPTIONS

- Gas booster
- Connection kit for gas cylinder
- Complementary Zippertex module
- Disposable basket and filters kit

---

Let's stay one  
step ahead by  
focusing on  
creativity and  
expertise.
